

4th Annual Aquatic Law Symposium with Vacation Package Option

February 28, 2014
Fort Lauderdale, Florida
PIER 66*

Not your ordinary symposium!

Certified for 7 CLE Credits and 1 Ethics Credit

Pre-registration fee prior to Feb. 10, 2014 - \$650.00, After Feb. 10 - \$ 750.00

Overview: Annually, over 4,000 people drown in the U.S. For every drowning, there are four serious accidents requiring emergency room intervention. Most drownings and accidents are preventable and are often the subject of litigation. In addition, boating and SCUBA accidents often involve drowning.

The objective of the symposium is to provide plaintiff and defense attorneys information about principles and practices of aquatic law. A select group of medical doctors, scientists and attorneys will provide expert presentations. In addition, a distinguished panel of defense and plaintiff attorneys will discuss developing theories of liability.

A weekend vacation package with special rate is offered to out of the area participants featuring deep sea fishing, golf, fine dining, shopping and sightseeing.

To register contact Dr. Ivonne Schmid at ischmid@ishof.org

*For special rate of \$219 p.n. at the Pier 66 go to
